

Project Documentation can be found at <http://127.0.0.1:8000/admin/doc/views/>

The auto generated documentation for Django was created using 'admindocs'. However, it can only be found on the admin page. Our site is currently hosted locally, and the server will have to be run to view the documentation via the above link.

Sample screenshots of generated documentation:

/advice.html

View function: `myapp.views.advice`. Name: .

/maps.html

View function: `myapp.views.maps`. Name: .

/rating_form.html

View function: `myapp.views.rating_form`. Name: .

/ratings_landing_page.html

View function: `myapp.views.ratings_landing_page`. Name: .

/ratings_view.html

View function: `myapp.views.ratings_view`. Name: .

/ratings_view_class.html

View function: `myapp.views.ratings_view_class`. Name: .

/static/<path>

View function: `django.contrib.staticfiles.views.serve`. Name: .

/time.html

View function: `myapp.views.time`. Name: .

/upload_video.html

View function: `myapp.views.upload_video`. Name: .

/view_video.html

View function: `myapp.views.view_video`. Name: .

Django administration

[Home](#) › [Documentation](#) › [Views](#) › [myapp.views.rating_form](#)

myapp.views.rating_form

Directs to the form for class rating

Template:

[myapp/rating_form.html](#)

[Back to View documentation](#)

Django administration

[Home](#) › [Documentation](#) › [Views](#) › [myapp.views.time](#)

myapp.views.time

Directs to time management homepage

Template:

[myapp/time.html](#)

[Back to View documentation](#)

Documentation was written as below:

```
104
105 def time(request):
106     """
107     Directs to time management homepage
108
109     **Template:**
110
111     :template:`myapp/time.html`
112     """
113     return render_to_response('time.html')
114
115 def rating_form(request):
116     """
117     Directs to the form for class rating
118
119     **Template:**
120
121     :template:`myapp/rating_form.html`
122     """
123     if request.method == "POST":
124         form = RateForm(request.POST)
```
