

# Freshman Starter Kit

## Website User Guide

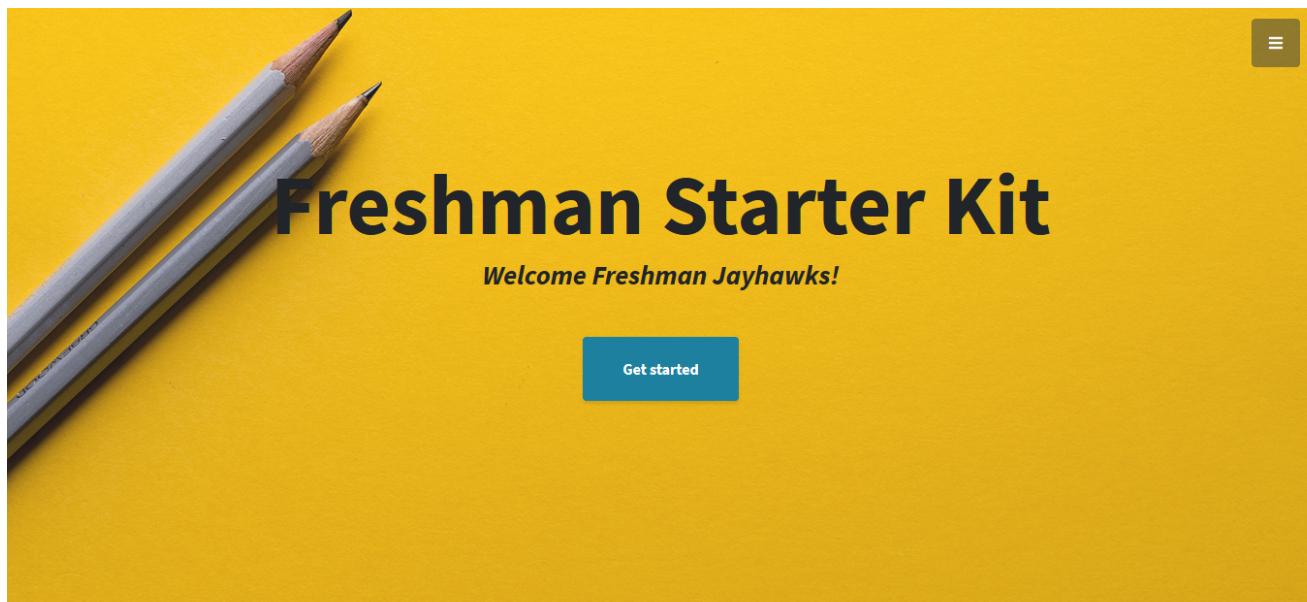

<http://codehers.pythonanywhere.com>

Freshman Starter Kit is a website designed for Freshman in EECS. This guide will walk you through each feature that the website has with graphics. This guide is made for first-time users that either want to help freshman with reviews and posts, or want to have access to those reviews.

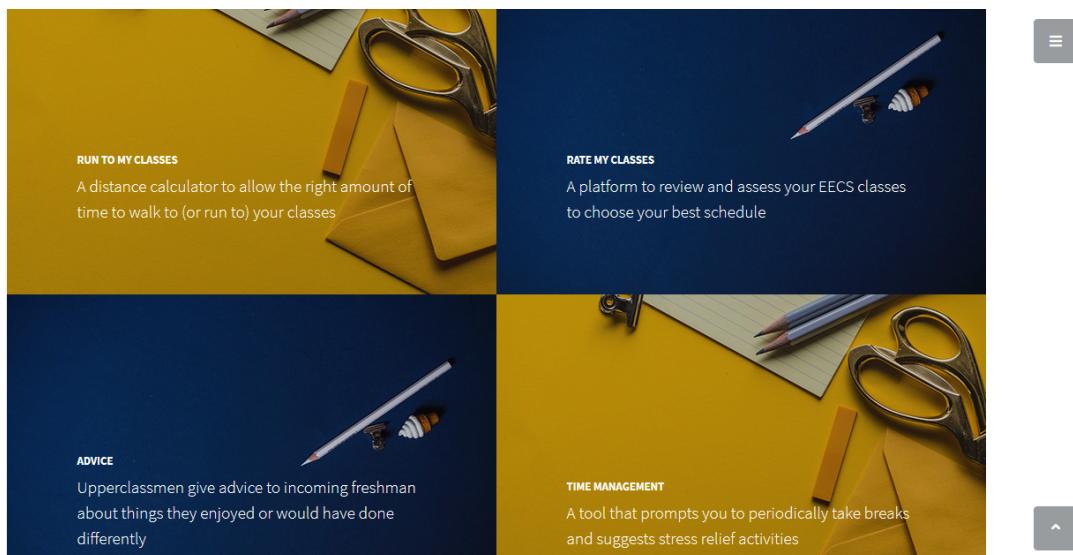

## Main Page

---

When you first enter the Website, you will encounter the main page. You can either scroll down to see all the options that we have available, or you can click on “Get Started” to be taken to those options automatically.

The **Get Started** button not only has the ability take you automatically to the options, but it also works as a timer starter/restarter. The timer that it initiates is the one you will be able to see if you go to the “Time Management” option. You can learn more about this option by reading the [“Time Management” subtitle](#).

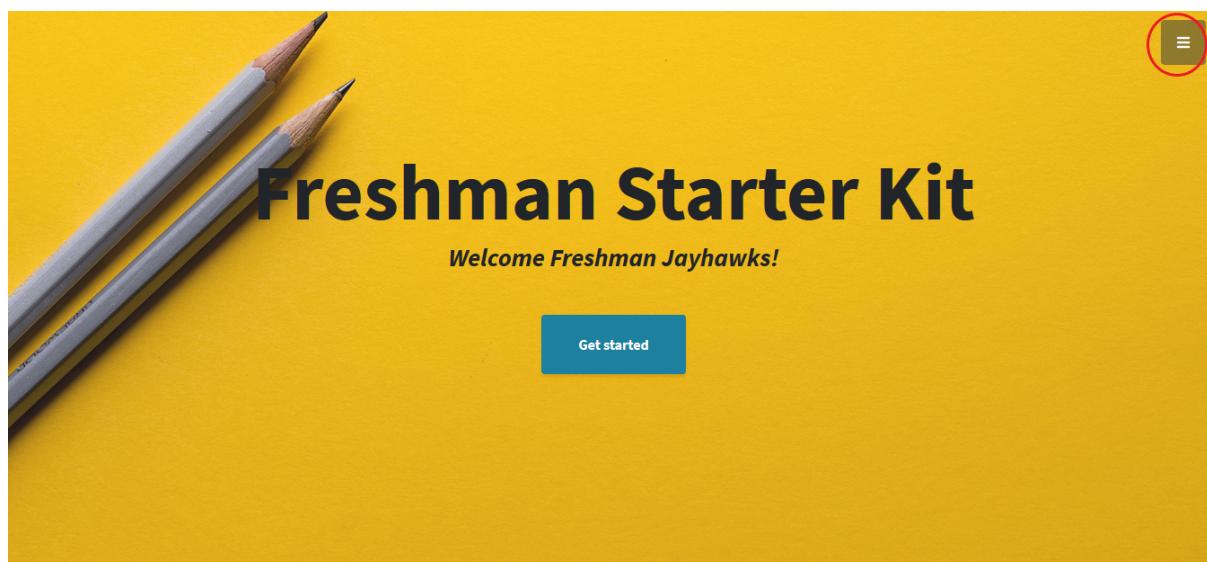

The options available are: "[Run to my classes](#)", "[Rate my class](#)", "[Advice](#)", and "[Time Management](#)". All of the options mentioned can be accessed through the main page or by links provided on the side menu. (read "[Side Menu](#)" subtitle for more information)

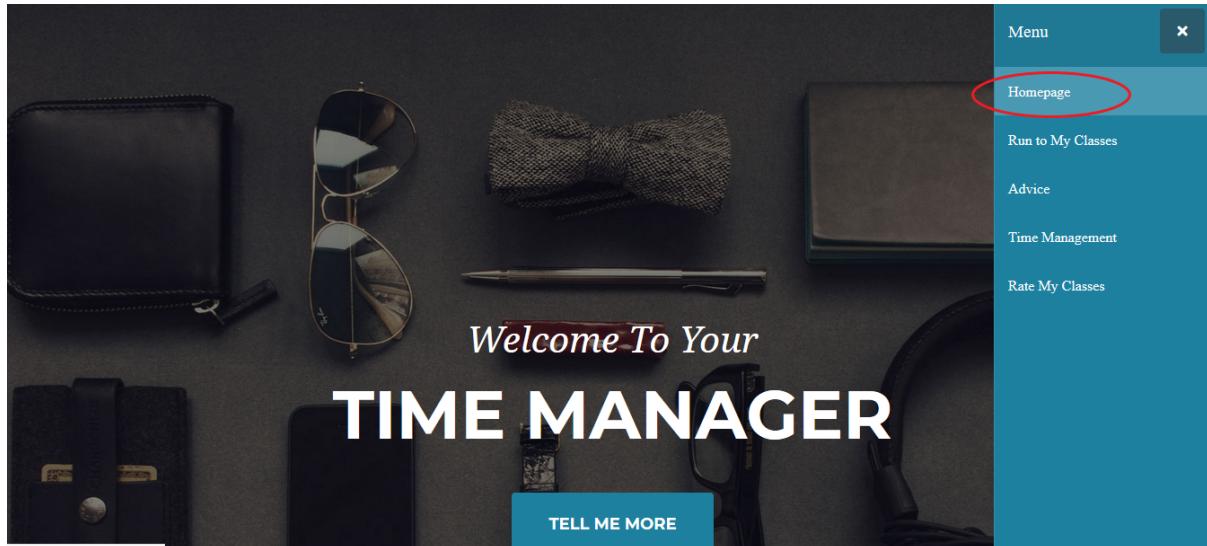

## Side Menu

---

There is a side menu available in any page. It can be accessed by clicking on the symbol with the three lines on the top right corner of each page. The contents of the Menu vary a little depending on the page you are at, but the functionality intended is the same: link you to another page directly.

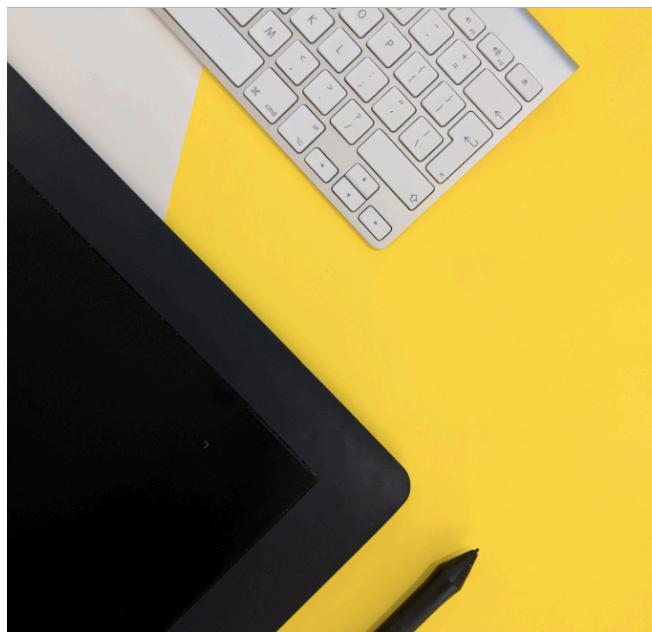

Therefore, if you wanted to, for example, go from the “**Time Management**” back to the “**Main Page**”, you could use the Side Menu to do so.

## Run to my Classes

The “**Rate my class**” page, will provide a form to input upto 5 buildings from your class schedule to calculate the walking time between your classes. The options in the drop-down are populated from the **Building** class in the database, which can be added and edited in the admin console if more buildings need to be added or modified.

Select your class buildings according to your schedule!  
and we will calculate the time it will take you to walk between your classes

  
  
  
  

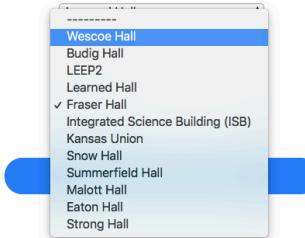

CALCULATE WALKING TIME

Using the drop-down menu, select your class locations. You will be prompted to select two or more classes so that atleast one distance can be calculated. Once you have chosen your buildings, press the '[Calculate Walking Time](#)' button.

Select your class buildings according to your schedule!

and we will calculate the time it will take you to walk between your classes

Select your class buildings according to your schedule!

and we will calculate the time it will take you to walk between your classes

Learned Hall

Please select an item in the list.

CALCULATE WALKING TIME

Select your class buildings according to your schedule!

and we will calculate the time it will take you to walk between your classes

Learned Hall

LEEP2

Kansas Union

Fraser Hall

CALCULATE WALKING TIME

Once the form is submitted, the distance in miles and walking time in minutes will be calculated using an average walking speed of people in their 20s.

## Walk Time Calculator

**From Learned Hall to LEEP2**

**2.28 minutes**

0.113 mi.

---

**From LEEP2 to Kansas Union**

**14.02 minutes**

0.701 mi.

---

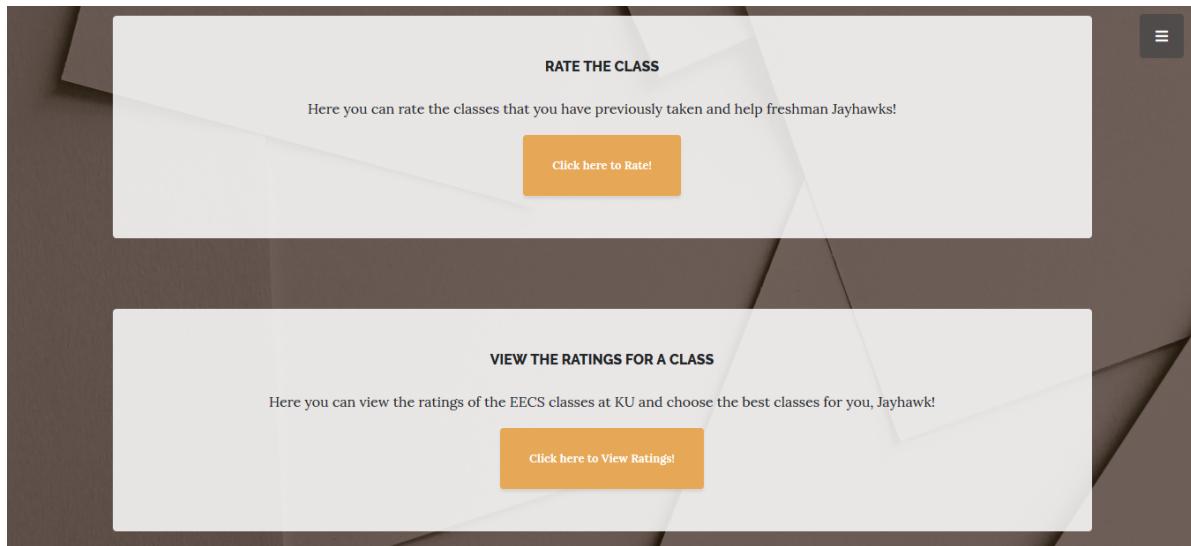

**From Kansas Union to Fraser Hall**

**4.08 minutes**

A google maps widget of the KU campus will also help in convenient navigation!

# Rate my Class

Once you are in the “[Rate my class](#)” page, you will see two options: Rate the Class or View the Ratings for a class.

**Rate the class** will take you to a form that you will have to fill out if you want to leave a rating for an EECS class. Fill all of the fields to be able to submit the form. Once you are done with your rating, click on the “Rate Class” button. The page will then immediately redirect you to the “View the Ratings for a Class” page.

A screenshot of a "Write a class review" form. On the left, there is a photograph of a keyboard resting on a yellow surface next to a black laptop. On the right, the form fields are listed: "Class rated: EECS 268", "Class difficulty level: Hard", "Class hours spent: 3 to 6", "Rater grade: C", "Class exams num: 2", "Class hw: A lot of homework.", "Class comments: Very useful class, but it", and "Class overall: Get ready for a hard semester". At the bottom is a blue button labeled "RATE CLASS", which is circled in red.

**View the Ratings for a Class** will take you to the place where all of the ratings are located. The ratings are organized by last-published, last-shown. If you want to filter the ratings to see only the ratings for a specific class, you can do so with the tool provided at the top of the ratings page.

1. Simply click on the small arrow pointing down to get a list of all the available classes that were rated. Select the one that you want.
2. Click on “Filter” to filter the classes that you want to see.

## Class Ratings

Use this to filter the classes you want to see

ALL	<input type="button" value="FILTER"/>
ALL	
EECS101	
EECS388	
EECS268	

## Advice

---

“**Advice**” will take you to a page where you can view advice posts written by upper classmen. If you like any advice post written, be sure to like it. By selecting the “**Like**” button, you will be able to like a post.

published: Nov. 28, 2019, 11:18 p.m.

### How to deal with Exam stress

Jacky Doe | Junior

This may seem obvious, but start studying early. Getting everything done last minute may be possible, but it is very stressful.

Be sure to visit your professor's office hours to clear any doubts regarding the exam material. In addition, if studying together helps, get a group of friends ready to work together. All libraries have group study areas, so it should not be a problem

Number of likes: 0

When you hit the button, you will be directed to a detailed view of the post and you can now see the “Number of likes” for the post, has taken your like into account.

Title:

 ≡

Text:

It is important that we remove time for ourselves every now and then. During this time, do something that you love. Go read a book, talk to friends, talk to family, eat some good food. Once you get some "me" time, you will be happier and trust me, you will be able to focus better. This is something that definitely keeps me going

What year of school are you?  ▼

SAVE

When you click save you will be redirected back to the view advice posts page. You can now see that your advice is posted for other Jayhawks to see.

At any point you can use the menu bar in the top right corner to go back to any of the main pages of the website.

# Time Management

---

“**Time Management**” will take you to a page where you can keep a track of how long you have been active on the website. A timer/stopwatch will appear whenever the “**Time Management**” option is chosen.

## YOU HAVE BEEN ACTIVE THIS LONG:

**00:01:19**

For every ten minutes a reminder will appear to take a break. This alert will appear anywhere in the website.

codehers.pythonanywhere.com says

You have been active for 10 minutes

OK

“**Time Management**” also has suggestions on how to take breaks.

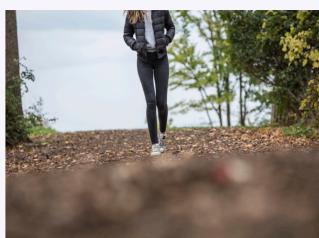

Cute dogs

Take a nap

Eat something

Take a walk

Join Clubs

Remember to Laugh

Each option will redirect to another page.

**“Cute dogs”** will take you to KU’s Therapy Dog Programs.

**“Take a nap”** will take you to an Youtube video dedicated to relaxing music for sleeping, etc.

**“Eat Something”** will take you to KU’s Campus Cupboard.

**“Take a Walk”** will take you to KU’s Recreation Service.

**“Join a Club”** will take you to KU’s RockChalkCentral homepage.

**“Remember to Laugh”** will take you to an Youtube video with the best standup comedys.
